Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 08 July 2003.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 18-33, drawn to a bait sleeve and a method for catching fish using the sleeve, classified in class 43, subclass 41.
 - II. Claim 34, drawn to a method for creating an improved soft artificial bait, classified in class 43, subclass 42.53.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the product as claimed can be made by another materially different process such as placing the sleeve into the mold right after the plastisol has been injected into the mold and the process as claimed can be used to make other and materially different product such as a toy (since no hook is being attached to the bait).
3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Art Unit: 3643

4. If applicant elects, Group I, then this application contains claims directed to the following patentably distinct species of the claimed invention:

Species I - Figs. 1, 2, and 2A (sleeve with open end 14, knot 29, hook end 30 protrudes out at first end 14);

Species II - Figs. 3 and 3A (swivel harness 132, leader 138, treble hook 130);

Species III - Fig. 4 (hook 226 molded to second end of sleeve 16);

Species IV - Fig. 5 (second end 16 open, hook 326 coupled to center of sleeve);

Species V - Fig. 6 (bait 18 inserted into sleeve then cut into two pieces);

Species VI - Fig. 7 (sleeve 12 molded into a soft bait 418);

Species VII - Fig. 8 (second end 16 coupled to head 550 with skirt 570, two hooks 26);

Species VIII - Fig. 9 (tandem spinner bait);

Species IX - Figs. 10 and 10A (crank bait);

Species X - Fig. 11 (bucktail spinner, head 850); and

Species XI - Fig. 12 (spinner on shaft, beads 990).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 18-20 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Art Unit: 3643

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
